SUMMARY ANALYSIS

The bill amends the Florida Deceptive and Unfair Trade Practices Act by changing obsolete dates and allowing a receiver or other neutral party to bring an action on behalf of a defendant against a third party.

This act shall take effect July 1, 2006, and does not appear to have a fiscal impact on state or local government.

FULL ANALYSIS

I. SUBSTANTIVE ANALYSIS

A. HOUSE PRINCIPLES ANALYSIS:

This bill does not appear to implicate any of the House Principles.

B. EFFECT OF PROPOSED CHANGES:

Present Situation

The Florida Deceptive and Unfair Trade Practices Act (FDUTPA) Part II of ch. 501, F.S., provides remedies and penalties for “[u]nfair methods of competition, unconscionable acts or practices, and unfair or deceptive acts or practices in the conduct of any trade or commerce...”¹ The Department of Legal Affairs,² office of the state attorney or a consumer³ may bring an action under ch. 501, F.S.

Under FDUTPA, the Attorney General or other enforcing authority may bring an action on behalf of a consumer⁴ and seek the appointment of a receiver⁵ or fiduciary to seek redress. A receiver only has the powers given to him or her by statute or by order of appointment.⁶ Under most circumstances, it is the receiver's duty to safeguard the property in his or her custody and to protect the rights and interests of all claimants while still maintaining neutrality.⁷

Under current law, it is unclear whether a receiver or other court appointed person has standing to bring a proceeding on behalf of defendants against a third party who may have an involvement in the wrongdoing.

A receivership allows the court to accomplish “complete justice,” with the goal of providing protection to the property at issue until the final disposition of the matter.⁸ An appointment of a receiver is an equitable question and not a matter of right.⁹ Typically, the appointment of a receiver is an ancillary remedy and can only be obtained in connection with some other action to obtain a specific relief.¹⁰

Effect of Proposed Changes

The bill amends ss. 501.203 and 501.204, F.S., to change the date from 2001 to 2006 in order to capture changes in federal law up to July 1, 2006.

The bill amends s. 501.207, F.S., to allow the court to enter orders to bring actions “in the name of and on behalf of the defendant enterprise.” The effect is to allow a receiver or other court appointed person to bring an action on behalf of a defendant against a third party who played some role in the alleged wrongdoing.

SUMMARY ANALYSIS

HB 685 w/ CS establishes a new type of prescription drug wholesaler permit, the "limited prescription drug veterinary wholesaler permit" (permit). The permit is required for any person who engages in the distribution, in or into the state to veterinarians, of veterinary prescription drugs and prescription drugs regulated by the Federal Food, Drug, and Cosmetic Act (act).¹ The bill provides several permit requirements, including a \$20,000 bond or equivalent surety requirement, and provides parameters for permit holders.

The bill defines any human prescription drug, regulated under the act, as an adulterated drug if it has been returned by a veterinarian to a limited prescription drug veterinary wholesaler.

The bill provides that no more than 30 percent of drug sales by limited prescription drug veterinary wholesalers may be prescription drugs prescribed for human use. It also requires a limited prescription drug veterinary wholesaler to comply with pedigree paper tracking requirements except under certain circumstances. The bill provides a fee for a limited prescription drug veterinary wholesaler's permit of not less than \$300 or more than \$500 annually.

The bill requires the Department of Health (DOH) to inspect each limited prescription drug wholesaler. It authorizes DOH to order immediate closures of a limited prescription drug veterinary wholesaler if DOH determines that it presents an immediate danger to the public health safety and welfare.

The DOH estimates that, with the creation of the permit, there will be a yearly loss of \$3,000. According to DOH, this loss of revenue will have no effect on current operations.

The effective date of the bill is July 1, 2006.

¹ Section 503(b) of the Federal Food, Drug, and Cosmetic Act regulates pharmaceutical drugs intended for human consumption.

FULL ANALYSIS

I. SUBSTANTIVE ANALYSIS

A. HOUSE PRINCIPLES ANALYSIS:

Provide Limited Government – HB 685 w/ CS creates a new prescription drug wholesaler permit. The new permit allows veterinary wholesalers to provide legend drugs intended for human use but limits the sales to no more than 30 percent. The bill decreases requirements for veterinary wholesalers that wish to provide legend drugs intended for human use. The creation of the permit will result in a yearly loss of \$3,000 in regulatory fees, according to the Department of Health (DOH).

B. EFFECT OF PROPOSED CHANGES:

HB 685 w/ CS establishes a new type of prescription drug wholesaler permit, the “limited prescription drug veterinary wholesaler permit” (permit). The permit is required for any person who engages in the distribution in or into the state of veterinarian prescription drugs and prescription drugs subject to, or described by s. 503(b) of the Federal Food, Drug, and Cosmetic Act² to veterinarians. The bill also allows limited veterinary drug wholesalers to sell drugs to:

- Licensed veterinarians practicing on a full-time basis;
- Veterinary medicine instructors;
- Law enforcement personnel with service animals;
- Researchers, not involved in clinical use; or
- For use in chemical analysis or physical testing, for the purposes of instruction in law enforcement, research, or testing.

The bill provides several permit requirements, including a \$20,000 bond or equivalent surety requirement, and provides parameters for permit holders. The bill defines any prescription drug subject to, defined by, or described by s. 503(b), which has been returned by a veterinarian to a limited prescription drug veterinary wholesaler as an adulterated drug.

The bill specifies that no more than 30 percent of drug sales³ by limited prescription drug veterinary wholesalers may be prescription drugs prescribed for human use. It also requires a limited prescription drug veterinary wholesaler to comply with pedigree paper tracking requirements under s. 499.0121, F.S., except that the permit holder is not required to comply with the pedigree paper requirements of s. 499.0121(6)(f), F.S., upon the wholesale distribution of a prescription drug to a veterinarian.

The bill permits intracompany sale or transfer of prescription drugs from an out of state establishment that is duly licensed to engage in the wholesale distribution of prescription drugs in its state of residence, to a licensed limited prescription drug veterinarian wholesaler. Both wholesalers must operate under the same name, and comply with the recordkeeping requirements of s. 499.0121(6), F.S.

The bill provides a fee for a permit of not less than \$300 or more than \$500 annually. It also requires the Department of Health (DOH) to inspect each limited prescription drug wholesaler. It authorizes DOH to order immediate closures of a limited prescription drug veterinary wholesaler if DOH determines that it presents an immediate danger to the public health safety and welfare.

Limited Veterinarian Prescription Drug Wholesaler Permit Requirements

The bill provides the following permit requirements and conditions under the permit:

² Section 503(b) of the Federal Food, Drug, and Cosmetic Act regulates pharmaceutical drugs intended for human consumption.

³ According to a survey conducted by the American Veterinary Distributors Association (AVDA), human drug sales comprise approximately 30% of the annual sales volume of veterinary wholesalers who sell all types of veterinary products to veterinarians.

- The permit holder must be engaged in the business of wholesaling prescription and veterinary legend drugs on a full-time basis;
- No more than 30 percent of drug sales may be prescription drugs prescribed for human use;
- The permit holder may not be licensed in any state to wholesale prescription drugs subject to s. 503(b) of the Federal Food, Drug, and Cosmetic Act to any person who is authorized to sell, distribute, purchase, trade, or use these drugs on or for humans;
- The permit holder must submit a \$20,000 bond or equivalent surety;
- The permit holder must maintain a license or permit to engage in wholesale distribution of prescription drugs at all times in compliance with the laws of the state in which it is a resident;
- The permit holder must comply with s. 499.0121, F.S., except that the permit holder is not required to comply with the pedigree paper requirements of s. 499.0121(6)(f), F.S., for wholesale distribution of a prescription drug to a veterinarian; and
- The permit holder may not return to inventory for subsequent wholesale distribution any drug federally regulated under s. 503(b) which has been returned by a veterinarian.

The effective date of the bill is July 1, 2006.

Overview

The Bureau of Statewide Pharmacy Services of DOH is responsible for regulating the wholesale distribution of drugs intended for human consumption⁴ and veterinary legend drugs⁵ in Florida under the Florida Drug and Cosmetic Act. The Florida Drug and Cosmetic Act is codified in ch. 499, F.S.

Under s. 499.012, F.S., "wholesale distributor" is defined to mean any person engaged in wholesale distribution of prescription drugs. Persons or entities which distribute wholesale veterinary prescription drugs must obtain a permit under the Florida Drug and Cosmetic Act.

Currently, wholesalers that distribute drugs to veterinarians must have a prescription drug wholesaler's permit, an out-of-state wholesaler's permit, a retail pharmacy wholesaler's permit, or a veterinary prescription drug wholesaler permit. However, most often wholesalers that distribute drugs to veterinarians register as a prescription drug wholesaler or a veterinary prescription drug wholesaler.

Veterinary prescription drug wholesalers are limited to only distributing prescription drugs developed and intended for animal use. According to an industry representative, some prescription drugs intended for human use do not have an equivalent prescription drug intended for animal use. Because of this deficiency, veterinarians may prescribe human drugs to animals. According to DOH, human medications sold by veterinarians are not on any list of adulterated, counterfeit, or diverted drugs. The human drugs sold by veterinarians include eye ointment, antibiotics, allergy medications, and topical anesthetics.

Existing Regulations:

Veterinary Prescription Drug Wholesaler Permits

Section 499.01, F.S., requires a permit for any person or establishment that wishes to operate as a veterinary prescription drug wholesaler. Veterinary prescription drug wholesaler is defined as any person engaged in the wholesale distribution of veterinary prescription drugs in or into Florida.⁶

Prescription Drug Wholesalers

All prescription drug wholesalers are required to post a \$100,000 bond and to file an extensive permit application that includes the submission of fingerprint cards for all key individuals associated with the wholesaler's operations in order for a criminal history check to be performed. In addition, each prescription drug wholesaler must have a designated representative who has successfully passed an examination on federal and state laws, and department rules, relating to the wholesale distribution of prescription drugs.

⁵ Section 499.0122(1)(c), F.S.

Pedigree Papers

Pedigree papers are the key standard for control of the wholesale drug industry designed to prevent drug diversion, fraud, and counterfeiting. They require wholesalers to provide purchasers with a written sales history tracing each drug back to its initial manufacturer. These written histories, commonly referred to as pedigree papers, provide an audit trail and contain specific information about each sales transaction, such as the name and address of each previous purchaser of the drug.

Beginning July 1, 2006, prescription drug wholesalers will be required to pass pedigree papers down to the retail level. Wholesalers who pass pedigree papers to veterinarians are included in this provision.

Florida Drug & Cosmetic Act

Pursuant to the Florida Drug and Cosmetic Act, part I, chapter 499, Florida Statutes, DOH is responsible for administering and enforcing efforts to prevent fraud, adulteration, misbranding, or false advertising in the preparation, manufacture, repackaging, or distribution of drugs, devices and cosmetics. Wholesalers, manufacturers and distributors of drugs or devices must be permitted by the department or otherwise be exempt.⁷

Under the Florida Drug and Cosmetic Act (act), any person who is at least 18 years of age or older, pays a permit fee, and submits specified information may, with certain exceptions, obtain a permit as a prescription drug wholesaler.⁸ The applicant must not have been found guilty of a violation of a law that directly relates to a drug, device, or cosmetic, regardless of adjudication. The applicant must submit information on contact persons for each facility used by the applicant for the storage, handling and distribution of prescription drugs. The permit, once granted, may be renewed biennially.

An out-of-state prescription drug wholesaler distributor located outside of Florida must be permitted by DOH. DOH is authorized to adopt rules that allow out-of-state drug wholesalers to obtain a drug wholesale permit on the basis of reciprocity in Florida to the extent that an out-of-state drug wholesaler possesses a valid permit from another state with requirements that are comparable to those of Florida and can show that the other state from which the wholesaler holds a permit would extend reciprocity under its laws to a Florida-permitted drug wholesaler. According to DOH, there are approximately 450 prescription drug wholesalers located in Florida and 900⁹ out-of-state wholesalers, of which less than

⁷ Drug marketing is also subject to regulation under the Federal Prescription Drug Marketing Act of 1987, which establishes minimum standards for the prescription drug industry including requirements for an audit trail of sales transactions.

⁸ See ss. 499.01 and 499.012, F.S. The permitting requirements for a number of establishments licensed or permitted by the Department of Health to engage in activities regulated under the Florida Drug and Cosmetic Act are the same. Such establishments include: prescription drug manufacturer; over-the-counter drug manufacturer; compressed medical gas manufacturer; device manufacturer; cosmetic manufacturer; prescription drug wholesaler; compressed medical gas wholesaler; out-of state prescription drug wholesaler; retail pharmacy drug wholesaler; veterinary legend drug retail establishment; medical oxygen retail establishment; complimentary drug distributor; or restricted prescription drug distributor.

⁹ According to Department of Health records from 2003.

10 percent are one of the three large full-line wholesalers or their distribution centers, or major full-line regional wholesalers. The remaining wholesalers are secondary wholesalers that primarily buy and sell among other prescription drug wholesalers rather than to end-users such as hospitals or other health care entities, which include physicians or pharmacies.

The act requires prescription drug wholesalers to maintain records that provide a complete audit trail of prescription drugs from purchase to sale or other disposition. Such records known as "pedigree papers" must include a written statement of all previous sales of the drug that is sold in a wholesale market.

The act specifies criminal penalties for violations relating to activities regulated by DOH under the act. Such criminal offenses are, with few exceptions, punishable as a second-degree misdemeanor.

C. SECTION DIRECTORY:

Section 1. – Amends s. 499.006, F.S., to define a prescription drug returned by a veterinarian to a limited prescription drug veterinary wholesaler as an adulterated drug. Prescription drugs are those regulated by s. 503(b) of the Federal Food, Drug, and Cosmetic Act.

Section 2. – Amends s. 499.01, F.S., to require a permit for any person or establishment that intends to operate as a limited prescription drug veterinary wholesaler. The bill provides that the limited drug veterinary wholesaler permit may not be issued to the address of a health care entity or pharmacy licensed under ch. 465, F.S., except as provided in s. 499.01(2)(d), F.S.

Section 3. – Amends s. 499.012, F.S., to establish a limited prescription drug veterinary wholesaler permit. The bill provides several permit requirements and conditions under the permit, including a \$20,000 bond or equivalent surety requirement, and provides permissible transactions under the permit.

Section 4. – Amends s. 499.01221(1)(d) F.S., to delete veterinarians from the group of persons or entities to whom a veterinary legend drug retail establishment may sell veterinary legend drugs. The bill permits a veterinary legend drug retail establishment to only sell veterinary legend drugs to the public.

Section 5. – Amends s. 499.041, F.S., to require a fee for a limited prescription drug veterinary wholesaler's permit. The bill provides the fee may not be less than \$300 or more than \$500 annually.

Section 6. – Amends s. 499.065, F.S., to require DOH to inspect each limited prescription drug veterinary wholesaler. The bill permits DOH to order the immediate closure of a limited prescription drug veterinary wholesaler if DOH determines that it presents an immediate danger to the public health, safety, or welfare.

Section 7. – Provides an effective date of July 1, 2006.

II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT

A. FISCAL IMPACT ON STATE GOVERNMENT:

1. Revenues:

<u>Estimated Revenue</u>	<u>1st Year</u>	<u>2nd Year</u> <u>(Annualized/Recurring)</u>
Decrease in permit fee revenue \$300 for est. 10 permits	-3,000	-3,000
Total Estimated Revenue	- \$3,000	- \$3,000

2. Expenditures:

None

B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

1. Revenues:

None

2. Expenditures:

None

C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

Under the proposed legislation veterinary wholesalers who wish to offer some legend drugs intended for human use have the option of obtaining a limited veterinary prescription drug wholesaler permit instead of a prescription drug wholesaler permit. Because the limited veterinary prescription drug wholesaler has fewer requirements than the prescription drug wholesaler permit, some cost savings may be realized. Wholesalers who choose to obtain the newly created permit may pass their savings on to their customers.

D. FISCAL COMMENTS:

The Department of Health (DOH) estimates that no more than 10 establishments will apply and qualify to become limited veterinary wholesalers. As a result, the impact, assuming each is currently permitted as a prescription drug wholesaler or out-of-state prescription drug wholesaler, will be a decrease in revenue of \$3,000 annually. According to DOH, the \$3,000 loss in revenue will have no effect on operations.

III. COMMENTS

A. CONSTITUTIONAL ISSUES:

1. Applicability of Municipality/County Mandates Provision:

This bill does not require counties or municipalities to spend funds or take action requiring the expenditure of funds. This bill does not reduce the percentage of state tax shared with counties or municipalities. This bill does not reduce the authority that municipalities have to raise revenue.

2. Other:

None

B. RULE-MAKING AUTHORITY:

The Department of Health has the necessary rulemaking authority to carry out the provisions in the bill.

C. DRAFTING ISSUES OR OTHER COMMENTS:

None

66 tests or methods of assay set forth in such compendium, or, when
67 such tests or methods of assay are absent or inadequate, in
68 accordance with those tests or methods of assay prescribed under
69 authority of the federal act. A drug defined in the official

126 as provided in this paragraph. The department may issue a

128 same address as a licensed nuclear pharmacy, which is a health
129 care entity, for the purpose of manufacturing prescription drugs
130 used in positron emission tomography or other
131 radiopharmaceuticals, as listed in a rule adopted by the
132 department pursuant to this paragraph. The purpose of this

140 definition of a closed pharmacy in s. 499.003.

141 Section 3. Paragraph (g) of subsection (2) of section

155 manufacture must obtain a permit as a prescription drug
156 wholesaler, an ~~or~~ out-of-state prescription drug wholesaler, or
157 a limited prescription drug veterinary wholesaler in lieu of the

159 prescription drug wholesaler must comply with the requirements

170 by, or described by s. 503(b) of the Federal Food, Drug, and
171 Cosmetic Act to veterinarians under the following conditions:

172 1. The person is engaged in the business of wholesaling
173 prescription and veterinary legend drugs to persons:

174 a. Licensed as veterinarians practicing on a full-time
175 basis;

176 b. Regularly and lawfully engaged in instruction in
177 veterinary medicine;

178 c. Regularly and lawfully engaged in law enforcement;

179 d. For use in research, not involving clinical use; or

180 e. For use in chemical analysis or physical testing, for
181 the purposes of instruction in law enforcement, research, or
182 testing.

183 2. No more than 30 percent of prescription drug sales may
184 be prescription drugs approved for human use which are subject
185 to, defined by, or described by s. 503(b) of the Federal Food,

193 4. A limited prescription drug veterinary wholesaler that

196 of security acceptable to the department, such as an irrevocable
197 letter of credit or a deposit in a trust account or financial
198 institution, payable to the Florida Drug, Device, and Cosmetic

200 administrative penalties imposed by the department and any fees
201 and costs incurred by the department regarding that permit which
202 are authorized under state law and which the permittee fails to
203 pay 30 days after the fine or costs become final. The department
204 may make a claim against such bond or security until 1 year
205 after the permittee's license ceases to be valid or until 60
206 days after any administrative or legal proceeding authorized in
207 ss. 499.001-499.081 which involves the permittee is concluded,
208 including any appeal, whichever occurs later.

209 5. A limited prescription drug veterinary wholesaler must
210 maintain at all times a license or permit to engage in the
211 wholesale distribution of prescription drugs in compliance with
212 laws of the state in which it is a resident.

213 6. A limited prescription drug veterinary wholesaler must
214 comply with the requirements for wholesale distributors under s.
215 499.0121, except that a limited prescription drug veterinary
216 wholesaler is not required to provide a pedigree paper as

219 7. A limited prescription drug veterinary wholesaler may

221 any prescription drug subject to, defined by, or described by s.
222 503(b) of the Federal Food, Drug, and Cosmetic Act which has
223 been returned by a veterinarian.

224 8. An out-of-state prescription drug wholesaler's permit
225 or a limited prescription drug veterinary wholesaler permit is
226 not required for an intracompany sale or transfer of a
227 prescription drug from an out-of-state establishment that is
228 duly licensed to engage in the wholesale distribution of
229 prescription drugs in its state of residence to a licensed
230 limited prescription drug veterinary wholesaler in this state if
231 both wholesalers conduct wholesale distributions of prescription
232 drugs under the same business name. The recordkeeping
233 requirements of s. 499.0121(6) must be followed for this
234 transaction.

235 Section 4. Paragraph (d) of subsection (1) of section
236 499.0122, Florida Statutes, is amended to read:

246 client-veterinarian relationship with the purchaser's animal.

2. Veterinary legend drugs may not be sold in excess of the amount clearly indicated on the order or beyond the date indicated on the order.

3. An order may not be valid for more than 1 year.

4. A veterinary legend drug retail establishment may not purchase, sell, trade, or possess human prescription drugs or any controlled substance as defined in chapter 893.

5. A veterinary legend drug retail establishment must sell a veterinary legend drug in the original, sealed manufacturer's container with all labeling intact and legible. The department may adopt by rule additional labeling requirements for the sale of a veterinary legend drug.

Section 5. Paragraph (h) is added to subsection (2) of section 499.041, Florida Statutes, to read:

499.041 Schedule of fees for drug, device, and cosmetic applications and permits, product registrations, and free-sale certificates.--

(2) The department shall assess an applicant that is required to have a wholesaling permit an annual fee within the ranges established in this section for the specific type of wholesaling.

(h) The fee for a limited prescription drug veterinary wholesaler's permit may not be less than \$300 or more than \$500 annually.

Section 6. Subsections (1) and (3) of section 499.065, Florida Statutes, are amended to read:

499.065 Imminent danger.--

HB 685

2006
CS

(1) Notwithstanding s. 499.051, the department shall inspect each prescription drug wholesale establishment, prescription drug repackager establishment, veterinary prescription drug wholesale establishment, limited prescription drug veterinary wholesaler establishment, and retail pharmacy drug wholesaler establishment that is required to be permitted under this chapter as often as necessary to ensure compliance with applicable laws and rules. The department shall have the right of entry and access to these facilities at any reasonable time.

(3) The department may determine that a prescription drug wholesale establishment, prescription drug repackager establishment, veterinary prescription drug wholesale establishment, limited prescription drug veterinary wholesaler establishment, or retail pharmacy drug wholesaler establishment that is required to be permitted under this chapter is an imminent danger to the public health and shall require its immediate closure if the establishment fails to comply with applicable laws and rules and, because of the failure, presents an imminent threat to the public's health, safety, or welfare. Any establishment so deemed and closed shall remain closed until allowed by the department or by judicial order to reopen.

For purposes of this section, a refusal to allow entry to the department for inspection at reasonable times, or a failure or refusal to provide the department with required documentation for purposes of inspection, constitutes an imminent danger to the public health.

SUMMARY ANALYSIS

In late 2005, an Orlando television station published on its website personal information regarding holders of a concealed weapon license. The television station along with members of the Florida Legislature received numerous complaints concerning the Internet publication of such information.

The bill creates a public records exemption for personal identifying information of an individual who has applied for or received a license to carry a concealed weapon or firearm. It authorizes the release of the information under certain circumstances. The bill provides for future review and repeal of the exemption and provides a statement of public necessity.

The bill does not grant rule-making authority to any administrative agency.

The bill could have a minimal fiscal impact on state government. It does not appear to have a fiscal impact on local governments.

The bill requires a two-thirds vote of the members present and voting for passage.

FULL ANALYSIS

I. SUBSTANTIVE ANALYSIS

A. HOUSE PRINCIPLES ANALYSIS:

Provide limited government – The bill decreases access to public records.

B. EFFECT OF PROPOSED CHANGES:

Background

Current law authorizes the Department of Agriculture and Consumer Services (department) to issue licenses to carry concealed weapons or concealed firearms¹ to qualified persons.² The license is valid in Florida for five years from the date of issuance. The license must include a color photograph of the licensee. The licensee must carry the license and valid identification at all times when in possession of the concealed weapon or firearm.³

An applicant for such license must submit to the department a completed application, a nonrefundable license fee, a full set of fingerprints, a photocopy of a certificate or an affidavit attesting to the applicant's completion of a firearms course, and a full frontal view color photograph⁴ of the applicant.⁵ The application must include:

- The name, address, place and date of birth, race, and occupation of the applicant;
- A statement that the applicant is in compliance with licensure requirements;
- A statement that the applicant has been furnished with a copy of chapter 790, F.S., relating to weapons and firearms;
- A warning that the application is executed under oath; and
- A statement that the applicant desires a concealed weapon or firearms license as a means of lawful self-defense.⁶

From 2005 to 2006, the department received 30,267 new applications and 34,182 renewal applications. Of those, the department issued 29,235 new licenses and 34,093 renewal licenses.⁷

Information submitted as part of the application process is a public record. In late 2005, an Orlando television station published on its website application information regarding holders of a concealed weapon license. The television station along with members of the Florida Legislature received numerous complaints concerning the Internet publication of such information.

Effect of Bill

The bill creates a public records exemption for personal identifying information of an individual who has applied for or received a license to carry a concealed weapon or firearm. It provides for retroactive application of the public records exemption.

The Division of Licensing of the department must release the information:

- With the written consent of the applicant or licensee or his or her legally authorized representative.

- Upon written request by law enforcement in connection with an active criminal investigation.

The bill provides for future review and repeal of the exemption on October 2, 2011. It also provides a statement of public necessity.

C. SECTION DIRECTORY:

Section 1 creates s. 790.0601, F.S., to create a public records exemption for personal identifying information of an applicant for or holder of a concealed weapon or firearm license.

Section 2 provides a public necessity statement.

Section 3 provides a July 1, 2006, effective date.

II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT

A. FISCAL IMPACT ON STATE GOVERNMENT:

1. Revenues:

This bill does not create, modify, amend, or eliminate a state revenue source.

2. Expenditures:

This bill could create a fiscal impact on the Department of Agriculture and Consumer Services (department), because staff responsible for complying with public records requests will require training relating to the newly created public records exemption. In addition, the department could incur costs associated with redacting the confidential and exempt information prior to releasing a record.

B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

1. Revenues:

This bill does not create, modify, amend, or eliminate a local revenue source.

2. Expenditures:

This bill does not create, modify, amend, or eliminate a local expenditure.

C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

None

D. FISCAL COMMENTS:

None

III. COMMENTS

A. CONSTITUTIONAL ISSUES:

1. Applicability of Municipality/County Mandates Provision:

The bill does not require counties or municipalities to spend funds or to take an action requiring the expenditure of funds. The bill does not reduce the percentage of a state tax shared with counties or municipalities. The bill does not reduce the authority that municipalities have to raise revenue.

2. Other:

Vote Requirement

Article I, s. 24(c) of the Florida Constitution, requires a two-thirds vote of the members present and voting for passage of a newly created public records or public meetings exemption. The bill creates a public records exemption. Thus, it requires a two-thirds vote for passage.

Public Necessity Statement

Article I, s. 24(c) of the Florida Constitution, requires a statement of public necessity (public necessity statement) for a newly created public records or public meetings exemption. The bill creates a public records exemption. Thus, it includes a public necessity statement.

B. RULE-MAKING AUTHORITY:

This bill does not grant rule-making authority to any administrative agency.

C. DRAFTING ISSUES OR OTHER COMMENTS:

Governmental Operations Committee Meeting

At the February 22, 2006, meeting of the Governmental Operations Committee members raised concerns regarding access to information made confidential and exempt by the bill. Members were concerned that child protective service workers and local government employees (such as code enforcement officers) would not have access to information regarding whether a person had a license to carry a concealed weapon or firearm. As a means of safety, members believed these employees currently conduct a concealed weapons check prior to going to a residence to perform their lawful duties. In addition, members were concerned that law enforcement officers performing routine traffic stops would not have access to such information because it is unclear whether a traffic stop is an active criminal investigation. Members also were concerned that law enforcement officers conducting a routine traffic stop would experience access delays based upon the time of day an officer might submit the written request. For example, an officer submitting a request between the hours of 8:00 a.m. and 5:00 p.m. might not experience a delay because these are considered normal business hours. An officer submitting a written request at 10:00 p.m. might experience a delay due to the office closing and not reopening until the next business day.

Public Records Law

Article I, s. 24(a), Florida Constitution, sets forth the state's public policy regarding access to government records. The section guarantees every person a right to inspect or copy any public record of the legislative, executive, and judicial branches of government. The Legislature, however, may provide by general law for the exemption of records from the requirements of Article I, s. 24(a), Florida Constitution. The general law must state with specificity the public necessity justifying the exemption (public necessity statement) and must be no broader than necessary to accomplish its purpose.

Public policy regarding access to government records is further addressed in the Florida Statutes. Section 119.07(1), F.S., also guarantees every person a right to inspect, examine, and copy any state, county, or municipal record. Furthermore, the Open Government Sunset Review Act⁸ provides that a public records or public meetings exemption may be created or maintained only if it serves an identifiable public purpose, and may be no broader than is necessary to meet one of the following public purposes:

- Allowing the state or its political subdivisions to effectively and efficiently administer a governmental program, which administration would be significantly impaired without the exemption;
- Protecting sensitive personal information that, if released, would be defamatory or would jeopardize an individual's safety. However, only the identity of an individual may be exempted under this provision; or,

⁸ Section 119.15, F.S.

- Protecting trade or business secrets.

IV. AMENDMENTS/COMMITTEE SUBSTITUTE & COMBINED BILL CHANGES

On February 22, 2006, the Governmental Operations Committee adopted a strike-all amendment and reported the bill favorably with committee substitute. The strike-all amendment narrowed the public records exemption by removing the confidentiality for the license number. It removed the exemption for the name, address, and social security number because it was redundant of personal identifying information. In addition, the strike-all amendment provided for retroactive application, conformed the public necessity statement to the public records exemption, and placed the exemption in chapter 790, F.S., which is the weapons and firearms chapter.

HB 687

CHAMBER ACTION

The Governmental Operations Committee recommends the following:

Council/Committee Substitute

Remove the entire bill and insert:

A bill to be entitled

An act relating to public records; creating s. 790.0601, F.S.; creating an exemption from public records requirements for certain personal identifying information held by the Division of Licensing of the Department of Agriculture and Consumer Services; providing for retroactive application of the exemption; providing for disclosure of such information under specified conditions; providing for review and repeal; providing a statement of public necessity; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 790.0601, Florida Statutes, is created to read:

790.0601 Public records exemption for concealed weapons.--

(1) Personal identifying information of an individual who has applied for or received a license to carry a concealed

24 weapon or firearm pursuant to s. 790.06 held by the Division of
25 Licensing of the Department of Agriculture and Consumer Services
26 is confidential and exempt from s. 119.07(1) and s. 24(a), Art.
27 I of the State Constitution. This exemption applies to such
28 information held by the division before, on, or after the
29 effective date of this section.

30 (2) Information made confidential and exempt by this
31 section shall be disclosed:

32 (a) With the express written consent of the applicant or
33 licensee or his or her legally authorized representative.

34 (b) By court order upon a showing of good cause.

35 (c) Upon written request by law enforcement in connection
36 with an active criminal investigation.

37 (3) This section is subject to the Open Government Sunset
38 Review Act in accordance with s. 119.15 and shall stand repealed
39 on October 2, 2011, unless reviewed and saved from repeal
40 through reenactment by the Legislature.

41 Section 2. The Legislature finds that it is a public
42 necessity that the personal identifying information of an
43 individual who has applied for or received a license to carry a
44 concealed weapon or firearm held by the Division of Licensing of
45 the Department of Agriculture and Consumer Services be made
46 confidential and exempt from public records requirements, with
47 certain exceptions. The carrying of a concealed weapon in the
48 state by members of the general public requires an individual to
49 obtain a license from the Department of Agriculture and Consumer
50 Services. The applicant for a license to carry a concealed
51 weapon or firearm must state that he or she seeks a concealed

HB 687

2006
CS

52 weapon or firearms license as a means of lawful self-defense.
53 The knowledge that someone has applied for or received a license
54 to carry a concealed weapon or firearm can very easily lead to
55 the conclusion that the applicant or licensee has in fact armed
56 himself or herself. This knowledge defeats the purpose behind
57 the authorization to carry a concealed weapon or firearm. If the
58 applicant or licensee had intended for the general public to
59 know he or she was carrying a weapon or firearm, he or she would
60 have applied for a regular weapon or firearms permit rather than
61 a license to carry a concealed weapon or firearm. The
62 Legislature has found in prior legislative sessions and has
63 expressed in s. 790.335(1)(a)3., Florida Statutes, that a record
64 of legally owned firearms or law-abiding firearm owners is "an
65 instrument that can be used as a means to profile innocent
66 citizens and to harass and abuse American citizens based solely
67 on their choice to own firearms and exercise their Second
68 Amendment right to keep and bear arms as guaranteed under the
69 United States Constitution." Release of personal identifying
70 information of an individual who has applied for or received a
71 license to carry a concealed weapon or firearm could be used to
72 harass an innocent person based solely on that person's
73 exercised right to carry a concealed weapon or firearm. Further,
74 such information could be used and has been used to identify
75 individuals who have obtained a license to carry a concealed
76 weapon or firearm for the purpose of making the identity of the
77 applicant or licensee publicly available via traditional media
78 and the Internet. Once again, such public disclosure contradicts
79 the purpose of carrying a concealed weapon or firearm.

SUMMARY ANALYSIS

This legislation removes the sales tax on electricity used on a farm. The exemption applies only to the electricity used directly and exclusively for the production or processing of agricultural products.

The bill also clarifies that farmers may use tax exempt diesel fuel in equipment other than farm vehicles.

The 2006 Revenue Estimating Conference projects that the exemption from sales tax for diesel fuel and electricity used for certain agricultural purposes would result in a loss of General Revenue of approximately \$4.1 million on an annualized basis for FY 2006-2007 and \$3.2 million on a cash basis for FY 2007-2008.

The effective date of this bill is July 1, 2006.

FULL ANALYSIS

I. SUBSTANTIVE ANALYSIS

A. HOUSE PRINCIPLES ANALYSIS:

Ensure lower taxes: The bill eliminates the sales tax on electricity used on a farm directly and exclusively for the production and processing of agricultural products. It also clarifies that farmers may use tax exempt diesel fuel in equipment other than farm vehicles.

B. EFFECT OF PROPOSED CHANGES:

Currently, s. 212.0501(3), F.S., exempts diesel fuel used for residential purposes from sales tax applicable to the "consumption, use, or storage by a trade or business." This provision also exempts diesel fuel used for agricultural purposes as described in s. 212.08(5), F.S. This exemption does not cover diesel fuel used in farm equipment or on a farm to process or produce farm products. This legislation expands the exemption to cover diesel fuel used in equipment other than farm vehicles.

Section 212.08, F.S., provides for specific exemptions from the sales and use tax imposed by Chapter 212, F.S. Exemptions generally take the form of identifying items specifically exempt, categorizing certain items as exempt when used for particular purposes, and exempting purchases or sales by certain types of organizations, such as the government, churches, and charitable organizations. Section 212.09(5), F.S., sets forth exemptions for sixteen different categories on account of use. This section provides an exemption for gas used exclusively on a farm or for processing farm products, but electricity used for those same purposes is not exempt.

According to the U.S. Department of Agriculture (USDA), between 2003 and 2005, farmers' overall fuel bills rose by 47 percent. The USDA projects farmers' energy bills will climb another \$1.7 billion in 2006.¹ The table below reflects the exemption status of electricity for neighboring states in the southern U.S.

FULL ANALYSIS

I. SUBSTANTIVE ANALYSIS

A. HOUSE PRINCIPLES ANALYSIS:

Safeguard individual liberty: The bill prohibits a telephone solicitor from making a telephonic sales call to any telephone number assigned to a cellular telephone service or any service where the called party is charged for the call. An exception is provided for calls made with prior written consent of the called party.

B. EFFECT OF PROPOSED CHANGES:

Present situation

State Law

The Florida Telemarketing Act requires non-exempt¹ businesses² and their salespersons³ that engage in the sale of consumer goods or services by telephone in Florida⁴ to be licensed by the Department of Agriculture and Consumer Services (DACS). Along with an application, an applicant must post security (surety bond, certificate of deposit, or letter of credit) of no less than \$50,000.⁵ Each license issued is required to be renewed annually by paying a new fee and submitting a new application to DACS.⁶

DACS maintains Florida's "Do Not Call" list.⁷ Residents who do not want to receive sales calls may have their residential, mobile or paging device telephone number included on this list; however, business numbers may not be included on the list.⁸ There is an initial fee of \$10 for each telephone number and a \$5 annual renewal fee.⁹ If a residential number is on the list, a telephone solicitor may not make an unsolicited telephone call to that number.¹⁰ The following are not considered to be unsolicited telephone calls:

- In response to an express request of the person called,
- In connection with an existing debt,
- A prior or existing business relationship, or
- From a newspaper publisher.¹¹

DACS is permitted to pursue administrative¹² and civil¹³ remedies against persons who violate the Florida Telemarketing Act or rules adopted or orders issued pursuant to the Florida Telemarketing Act. In addition, any commercial telephone seller or salesperson who solicits purchasers for a commercial telephone seller who is not licensed with DACS commits a third degree felony.¹⁴ Any subsequent violations are punishable as a second degree felony.¹⁵ Further, an injured individual may bring a civil

Federal Law

The Telephone Consumer Protection Act (TCPA) prohibits autodialed calls to emergency telephone lines, health care facilities, and any service for which the called party is charged for the call such as paging services and cellular telephones.¹⁷ The TCPA also prohibits delivery of artificial or prerecorded messages to residences without the prior express consent of the called party except for emergency purposes.¹⁸ The TCPA also provides a right of action allowing individuals, businesses, and state officials to bring suit.¹⁹

In addition to the TCPA, the federal government regulates how and when telemarketing occurs. The Telemarketing and Consumer Fraud Abuse Prevention Act empowers the Federal Trade Commission (FTC) to issue the Telemarketing Sales Rule,²⁰ which provides details on prohibited telemarketing practices.²¹

Effect of Proposed Changes

The bill amends s. 501.059, F.S., by providing the following terms and definitions:

- **Electronic serial number** means the unique numerical algorithm that is programmed into the microchip of each cellular telephone by the manufacturer and is vital to the successful operation and billing of the telephone.
- **Mobile identification number** means the cellular telephone number assigned to the cellular telephone by the cellular telephone carrier.
- **Cellular telephone** means a communication device containing a unique electronic serial number that is programmed into its computer chip by its manufacturer and whose operation is dependent on the transmission of that electronic serial number, along with a mobile identification number that is assigned by the cellular telephone carrier, in the form of radio signals through cell sites and mobile switching stations.

The bill also prohibits a telephone solicitor from making a telephonic sales call to any telephone number assigned to a cellular telephone service or any service where the called party is charged for the call. An exception is provided for calls made with prior written consent of the called party.

SUMMARY ANALYSIS

Citrus canker is a bacterial disease of citrus that causes premature leaf and fruit drop. It is highly contagious and can be spread rapidly by wind-borne rain, non-decontaminated lawnmowers and other landscaping equipment, people carrying the infection on their hands, clothing or equipment, or by moving infected or exposed plants or plant parts. To date, there is no known cure for citrus canker. Scientists continue to agree that the only way to eradicate the disease is to remove infected citrus trees and those located within 1,900 feet of infected or exposed trees.

Florida has been battling citrus canker since 1995, when an infestation occurred in an urban backyard very near Miami International Airport. Unfortunately, the United States Department of Agriculture (USDA) and the Florida Department of Agriculture and Consumer Services (DACS) were not able to contain the disease in the urban setting.

The eradication program has been stymied by lengthy legal battles and unprecedented weather conditions over the last few years. In January 2006, the United States Department of Agriculture (USDA) took the position, based on scientific analysis, that the current citrus canker eradication plan in Florida was inadequate to contain the disease. The USDA further stated that they would no longer fund tree removal that is done with eradication as the goal.

The Department of Agriculture and Consumer Services (DACS), working in conjunction with the USDA, plans to develop a response plan with scientific, industry and public input that will limit further tree removal and implement management practices that will accomplish the goals of controlling and suppressing canker infestations.

PCB AG 06-03 dismantles the current eradication plan codified in Florida statute.

The fiscal impact of this legislation on state government is indeterminate at this time. The effective date of this bill is upon becoming law.

B. EFFECT OF PROPOSED CHANGES:

Citrus canker is a bacterial disease of citrus that causes premature leaf and fruit drop. It is highly contagious and can be spread rapidly by wind-borne rain, non-decontaminated lawnmowers and other landscaping equipment, people carrying the infection on their hands, clothing or equipment, or by moving infected or exposed plants or plant parts. To date, there is no known cure for citrus canker. Scientists continue to agree that the only way to eradicate the disease is to remove infected citrus trees and those located within 1,900 feet of infected or exposed trees.

Florida has been battling citrus canker since 1995, when an infestation occurred in an urban backyard very near Miami International Airport. Unfortunately, the United States Department of Agriculture (USDA) and the Florida Department of Agriculture and Consumer Services (DACS) were not able to contain the disease in the urban setting.

The eradication program was nearly halted in November, 2000, by a Broward County Circuit Court order. Additional court orders in May, 2002, from the same judge continued to restrict eradication activity. The judge had declared unconstitutional the statute passed by lawmakers in the 2002 session, requiring the department to remove not only infected trees, but also exposed trees located within 1,900 feet of infected ones.

Based on research conducted by Dr. Timothy Gottwald, a scientist with the United States Department of Agriculture (USDA), "exposed to infection" refers to citrus trees located within 1,900 feet of an infected tree. This term, "exposed to infection," was codified in statute during the 2002 legislative session. At the same time, the Legislature provided for a repeal of the definition effective July 1, 2005 with a mandatory review by the Legislature prior to that date.

Applying his order statewide, the judge also struck down the portion of the law that allows for search warrants for a county-wide area. In response, DACS now obtains individual search warrants to remove infected and exposed trees and to search nearby properties to determine the extent of the outbreak. However, prior to obtaining search warrants, DACS sends Public Information Officers (PIOs) door-to-door seeking homeowner permission for tree removal.

As a result of these legal actions, the program was working under severe constraints and the disease continued to spread in southeast Florida, and was even moved by property owners to several other counties.

Every order issued by the Broward Circuit Judge was subsequently overturned by the Fourth District Court of Appeal in West Palm Beach. The question of the constitutionality of the tree removal statute went before the Florida Supreme Court and the law was upheld in February, 2004.¹

In addition to the legal delays, the spread of citrus canker bacteria was aided by the unprecedented hurricane seasons Florida experienced in 2004 and 2005. In January 2006, the United States

Department of Agriculture (USDA) took the position, based on scientific analysis, that the current citrus canker eradication plan in Florida was inadequate to contain the disease; a new management plan must be devised. The USDA further stated that they would no longer fund tree removal that is done with eradication as the goal.
